DECEMBER 20TH 2025

1PM MST PHILIP LIVESTOCK
PHILIP, SOUTH DAKOTA

BUILDING HERDS THAT LAST

☺ Schaack Ranch ☺

FELLOW CATTLE PRODUCERS

As 2025 draws to a close, it's incredible to look back on how quickly the year has passed and all that it has brought. On behalf of the entire Schaack Ranch team, we are excited to welcome you to our 3rd Annual Maternal Gems Female Sale on Saturday, December 20th.

At Schaack Ranch, our focus has always been on building females that excel where it matters most. From balanced, eye-appealing phenotype to verified performance and real-world functionality, our program is centered on cattle that work—day in and day out—under the rugged demands of western South Dakota. Longevity, fertility, structural soundness, and the ability to raise a big calf while breeding back on time remain the cornerstones of our maternal philosophy.

This year's offering is one we are especially proud of. We are bringing forward some of the most complete, productive females ever raised on the ranch—cattle that truly reflect our commitment to consistent quality and dependable maternal genetics. These are the kind of cows that build herds and enhance programs for years to come.

The relationships we've built within the cattle community are at the heart of our operation, and we are sincerely grateful for the trust our customers continue to place in Schaack Genetics. We are also honored to welcome respected co-signers who are contributing exceptional replacement females to this year's sale.

With over 600 head of females on offer, this sale provides an outstanding selection. Whether your interest lies in donor-quality prospects, elite embryos, expanding your registered cow herd, securing proven maternal lines, or adding top-tier commercial replacements, you'll find opportunities that fit your needs.

If you have any questions or would like additional information, please don't hesitate to give us a call. We're always happy to visit about the cattle and help in any way we can.

We look forward to seeing you on December 20th.

THE SCHAAACK'S

Schaack Viola 4104 is a standout daughter of FHCC Foundation 1558 with a lineage built on consistency and productivity. Her maternal granddam, 543, has been a steadfast contributor to our program, posting a 108 ribeye ratio across seven progeny and producing a 2025-born calf—demonstrating her ability to breed back year after year.

She ranks in the top 20% for WW and 25% YW, top 10% for Heifer Pregnancy, top 4% for CEM, top 10% for Marbling, and top 25% for RE, with elite carcass value landing her in the top 10% for both \$B and \$C. This rare balance of maternal strength, fertility, calving ease, and carcass merit positions her not only as a tremendous genetic and production investment, but as a clear future donor candidate for any program looking to build around proven, long-term cow families.

Sells bred and exposed to Schaack Industry, due to calve on 03/05/26.

Schaack Pride 472 is an attractive Connealy Commerce daughter that combines structural quality with a highly desirable maternal and calving-ease profile.

Genetically, she brings a remarkable profile –ranking in the top 10% for CED, top 25% for Heifer Pregnancy, an elite top 2% for CEM, and an impressive top 4% for PAP, making her especially valuable for operations in higher-elevation environments. Her carcass and maternal value continue to shine with a top 20% RE, top 1% \$M, top 20% \$W, and top 20% \$C. This young female blends calving ease, maternal design, and long-term profitability into a package that will strengthen any program.

Sells bred and exposed to Basin Monticello 4017 due to calve 03/09/26.

Schaack Barbaramere 404 is powerful and well-designed daughter of Schaack Load Up, offering exceptional growth, maternal strength, and structural integrity. Her great granddam is Schaack Barbaramere 302 who has been utilized as a donor dam in our operation for years!

404 ranks in the top 4% for WW and top 15% for YW, providing the kind of performance spread commercial and registered cattlemen appreciate. She has a top 2% ranking for Heifer Pregnancy along with a top 30% PAP score. On the carcass side, she brings balanced value with top 30% Marbling and top 25% RE, backed by strong economic indexes—top 10% \$M, top 20% \$W, top 20% \$B, and an elite top 10% \$C. This female offers the right mix of growth, fertility, structure, and value to elevate any program.

Sells bred to FHCC Foundation 1558 due to calve 02/27/26.

Schaack Epponia 430 is an attractive Satisfaction daughter backed by a highly productive cow family. Her dam, Schaack Epponia 894, consistently transmits performance, boasting a 106 weaning ratio and a 105 yearling ratio. When you study 430's phenotype and data, it's clear she is poised to continue that same pattern of growth, efficiency, and maternal strength.

Genetically, she brings balance across the board—ranking in the top 30% for CED, top 15% for WW, top 30% for YW, and top 25% for Milk. Structurally, she offers strong foot quality with top 10% Claw and top 25% Angle, and her carcass merit shines with a top 15% RE. With supporting indexes of top 25% \$M and top 10% \$W, this female blends productivity, structural soundness, and maternal value in a package built for long-term herd improvement.

This RAR Power Play 1660 daughter showcases the kind of longevity and productivity every herd strives for. Her dam, 162, is a 2011 model we acquired as a heifer in 2012—and she has flat-out performed for us ever since. Year after year, she has calved on schedule, raised calves with the right kind of substance, and proven the durability and maternal strength behind this cow family. That longevity and consistency are stamped directly into 402.

Sells bred and exposed to Schaack Satisfaction due to calve 03/09/26.

This Commerce daughter comes from one of the most reliable and productive females in our herd. Her dam, Schaack Lassie 806, has maintained a flawless record—calving every single year with a precise 365-day calving interval. Just as impressive, she has consistently weaned off high-performing calves, posting a strong 102 weaning ratio on six progeny. That kind of dependability and maternal efficiency is exactly what the Lassie family is known for, and 491 follows right in those footsteps. Sells bred to FHCC Foundation 1558 due to calve 03/09/26.

Schaack Gale 460 is a feminine, well-made Load Up daughter backed by the dependable Gale cow family and anchored by Schaack Satisfaction on the bottom side—bringing together two lines known for structural correctness, fertility, and udder quality. This heifer traces to generations of productive, no-nonsense females built to stay in the herd.

Her dam, Schaack Gale 134, a 2021 model, has quickly proven herself with three calves averaging 73 lbs. at birth and posting an impressive 102 weaning ratio. That combination of calving ease and strong maternal production makes 460 an easy female to appreciate and even easier to project forward.

Sells bred and exposed to Basin Monticello 4017 due to calve 03/09/26.

Here's another impressive Load Up daughter, and this one brings a strong spread of economic value—ranking well across \$M, \$W, and \$C. She represents a balanced genetic package designed to enhance maternal efficiency, hoof quality, and carcass merit in one dependable female. Her dam, Schaack Lass 046, has been a standout performer in our herd. She carries a 105 weaning ratio and backs it up with excellent ultrasound ratios: 106 IMF, 103 RE, and 106 Fat. That level of consistent, across-the-board performance is clearly reflected in 442.

Sells bred and exposed to Basin Monticello 4017 due to calve 03/16/26.

This Load Up daughter stems from the respected Queen cow family, tracing back to G A R Jeremiah, a sire known for adding maternal reliability, structural soundness, and performance. Queen 450 blends that heritage with the balanced, real-world functionality Load Up consistently stamps into his daughters.

She brings a valuable combination of calving ease, growth, and maternal strength, ranking exceptionally well in CED, HP, and CEM. Few females put this kind of spread together—light birth, strong gain, and elite maternal value all in one package.

Schaack Patriot 3251 is the kind of female that rises to the top in any group—powerful in phenotype, elite on paper, and backed by a cow family with true donor credibility. She is a standout Clarity daughter, and when you add in the influence of our proven 6193 donor dam, the genetic foundation behind this female becomes something truly special.

From the moment she hit the ground, 3251 has carried the look and presence of a donor prospect. She is complete in her design—soft-shouldered, bold-ribbed, and feminine through her front third, yet remains square, correct, and expressive from behind. This is the kind of structural correctness and body capacity that allows top-end females to stay sound, productive, and profitable for a long time.

Her data only strengthens the argument. With top-tier rankings across growth, carcass merit, and maternal value, she brings one of the most balanced and powerful profiles in the offering. She lands in the Top percentiles for both WW and YW, giving her the growth curve cattlemen are seeking today, while also offering elite rankings for Marbling, \$M, \$W, \$B, and an impressive Top 2% \$C. This combination of performance and economic relevance is exactly what drives modern Angus programs.

The maternal side of her pedigree is equally important. Her dam, 6193, has been a cornerstone donor for us—consistent, fertile, and productive with the ability to generate progeny that rise to the top in both phenotype and genomic merit. That donor strength is stamped firmly in Patriot 3251. She is the kind you confidently build around and the kind every progressive herd needs more of.

DONOR POWER IN A PACKAGE!

PREMIUM COW-CALF COMBINATION WITH ELITE GENETICS, GROWTH, AND CARCASS MERIT. PROVEN PEDIGREE. BUILT TO PERFORM, PRODUCE, AND ELEVATE YOUR HERD.

DAM OF LOT 17

DEER VALLEY BLACKBIRD 8768

PATERNAL GRAND DAM OF LOT 17A

Schaack Rita 5135 is the perfect complement to Lot 17, offering a cow-calf package with donor-level potential. We were fortunate to acquire her sire, 4 Sons Identified 5L5 from Four Sons Farm, Cynthiana, KY, and her first calf—an October-born heifer—is already showing the balance, growth, and phenotype we expect from this mating.

Rita 5135 herself is a female that stands out on both pedigree and performance. Her EPD profile makes it clear she is coming into her own as a potential donor. She combines double-digit calving ease with a YW of +148, giving her both fertility-friendly birth and powerful growth. She is also top 10% HP, while her carcass merit is elite, including a 1.72 Marb EPD in the top 2% and a top 20% RE.

Her economic indexes are equally impressive, finishing with a \$106 \$M, \$101 \$W, and a whopping \$406 \$C, making her one of the most well-rounded females in this sale offering.

18

PICK OF THE HEIFERS

ELEVATE YOUR HERD WITH SCHAACK RANCH
2025 SPRING REPLACEMENT HEIFERS

Here's your chance to advance your herd with the best genetics from Schaack Ranch. We are offering a pick select of top-tier 2025 replacement heifers, carefully developed to excel in any operation.

Our cow herd thrives in the rugged, challenging conditions of western South Dakota, and these heifers inherit the same hardiness, fertility, and maternal strength that make our cows so dependable. They are built to consistently raise healthy, high-performing calves while breeding back year after year.

WHAT MAKES THESE HEIFERS SPECIAL:

Hardiness: Raised in real-world conditions with no pampering, these females are ready to work for you right from the start.

Breeding Quality: Developed in breeding shape with natural management, reflecting exactly how we raise replacements for our own program.

Proven Traits: Carefully selected for longevity, fertility, growth, and maternal performance, ensuring your herd's future is built on solid genetics.

These heifers are foundation females, carrying the traits we value most in our herd—resilience, consistency, and performance.

YOUR OPPORTUNITY TO BUILD THE FUTURE OF YOUR HERD

This is more than just a selection—it's a chance to bring Schaack Ranch genetics into your program, laying the groundwork for years of productivity and profitability.

READY TO CHOOSE?

Heifers are available for viewing anytime.

See the current inventory at www.SchaackRanch.com

Selection must be made by March 1, 2026

Don't miss this opportunity to add proven, high-quality females to your herd. For inquiries or to schedule a visit, contact Clay at 605-685-3311.

SCHAACK RANCH WALL, SD

Alongside the registered lots, we are proud to feature two groups of bred commercial females, ready to make a difference in your herd. Offering 15 coming 3-year-old cows are home-raised, maternally built, and bred for longevity and performance. A powerful set of young commercial females ready to go right to work in your program. They've proven themselves as efficient young mothers and are positioned to make a long-term impact in any herd. AI'd to Schaack Ranch sires to begin calving March 18, 2026, with a 50-day cleanup exposure to Four Sons of Identified 5L5. This is a rare opportunity to secure young, productive cows bred to reliable genetics with the kind of structure, disposition, and maternal strength you can build around. Offering a standout group of 20 bred heifers designed to elevate cow herds for years to come. These females reflect the Schaack Ranch emphasis on fertility, udder quality, and functional, efficient growth. They are uniform, quiet, and bred to hit the ground running as first-calf females. AI'd to Schaack Ranch sires to begin calving March 1, 2026, followed by cleanup exposure to Basin Monticello 4017 and Maplecrest Sunburst J3269. Backed by high-character, highly maternal cow families, these heifers offer tremendous value for anyone looking to expand with productive, long-lasting replacements.

WYATT & HANNAH SCHAACK WALL, SD

Wyatt and Hannah Schaack are offering 50 head of coming 3-year-old females, a uniform and productive set built for longevity, fertility, and real-world performance. These young cows are AI'd to Schaack Load Up and will begin calving March 25, 2026, within a 55-day calving window. They were cleaned up with Schaack Power Play sons, adding dependable genetics and proven maternal value. This is a powerful group of young females ready to go straight to work and make an immediate impact in any operation.

KENNEDY H & S PARTNERSHIP PHILIP, SD

Kennedy H & S Partnership is offering a powerful set of bred 5-year-olds—females in the prime of their production years. These cows bring together structural soundness, proven maternal excellence, and the kind of eye appeal that stands out in any pasture. With the ability to raise big, consistent calves and stay productive for years to come, this group represents a dependable investment in quality and longevity.

JEFF & JAMIE SCHAACK HENRY, SD

Jeff and Jamie are bringing 50 home-raised first-calf Angus heifers, bred to Schaack Angus bulls known for their dependable calving ease and consistent, high-performing genetics. These females are set to begin calving April 15, with a 45-day calving window, offering a tight, uniform group ready to go right to work. They are also offering 50 additional high-quality females sourced from the Bruce Bruch Ranch, developed with the same care and attention and bred to calve in the same 45-day window starting April 15. Together, these two groups represent a strong set of fancy, uniform females backed by proven maternal lines—ideal for anyone looking to add reliable replacements to their program.

KETELSON & BEUG RANCH STURGIS, SD

Ketelson & Beug Ranch is offering 25 bred heifers, a uniform and well-developed group backed by years of disciplined selection and the influence of Schaack Ranch genetics. These females are bred for longevity, fertility, and practical, pasture-proven productivity. They are bred to flush brothers out of Schaack Home Run and Schaack Emerald 2486, bringing elite maternal and performance genetics to the front of their pedigrees. The group is set to begin calving on February 28, 2026, within a 45-day calving window, creating a tight, highly manageable set of replacements. This offering represents a dependable, ranch-ready group of heifers with the kind of consistency and genetic depth that add value fast.

ROBBY KOHNEN HITCHCOCK, SD

Robby Kohnen is bringing two outstanding groups of commercial females to this year's sale—both sets built for longevity, fertility, and real-world performance. The first set offered will be 20 uniform, high-quality group of black heifers bred to Schaack Ranch bulls to begin calving April 1st. These females are the kind you can turn out and trust—quiet, functional, and developed the right way. The second set offered will be 20 eye-appealing set of black white-face heifers, AI'd and bull bred to Schaack Ranch sires to start calving around April 1st. These heifers offer the proven maternal value of the baldies combined with dependable Schaack genetics top and bottom. Both groups represent a solid opportunity to add profitable, ranch-ready replacements backed by cattlemen who value structure, disposition, and productivity.

TREVOR AND OLIVIA CARLSON NEOLA, IA

Trevor and Olivia Carlson are bringing two exceptional groups of bred females to this year's sale—both designed to add uniformity, fertility, and efficiency to any operation. If you're looking to expand with a highly synchronized, uniform set, take a close look here. Offering 75 first-calf heifers that were AI'd in a one-day breeding to Schaack Precision, set to calve February 28, 2026. This kind of tight breeding window ensures a front-loaded, consistent calf crop with added management convenience and value. The Carlsons are also offering 40 head bred to Schaack Power Play sons, set to begin calving March 10, 2026, over a 45-day calving period. These are One Iron branded females, built for durability, maternal strength, and long-term production.

BRUCE BRUCH STURGIS, SD

Bruce Bruch brings an exceptional set of 70 April-born replacement heifers, the product of more than 25 years of selecting Schaack Angus bulls to strengthen and advance his herd. These bangs-vaccinated heifers weigh approximately 600 lbs. and reflect the uniformity, disposition, and maternal strength Bruce's program is known for. Year after year, his calves rise to the top of the market, and this group of heifers is no exception—showcasing dependable genetics and management you can build around. For anyone looking to secure high-quality replacements with a strong track record behind them, this offering deserves serious attention.

RYAN AND KERI CASTEEL VALE, SD

Ryan and Keri have relied on Schaack Ranch bulls for nearly a decade, and that consistency shows in their closed, maternally driven cowherd. This year they're offering a set of 15 late-March born, bangs-vaccinated replacement heifers weighing approximately 650 lbs.—the kind that grow into problem-free, productive momma cows. Their steer mates tipped the scales at over 600 lbs. and sold at the top of the market in early October, further proving the power and performance behind this program. This is an honest, gentle, and easy-handling group of females that will blend seamlessly into any herd. They come bangs-vaccinated, pouried, and anthrax-vaccinated, ready to go to work.
